

Omkar Kadam

Mumbai, India | omkark610@gmail.com

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with **8.8+ years** of experience architecting and delivering high-performance web applications using PHP/Laravel, React, Node.js, and cloud-native AWS services. Proven track record of building scalable REST APIs, microservices, and mission-critical platforms for international clients across healthcare (HIPAA/GDPR-compliant), fintech, and SaaS domains. Experienced in end-to-end product delivery from system design to deployment on AWS (EC2, RDS, S3, CloudWatch).

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), TypeScript, SQL, Bash, HTML5, CSS3
Frameworks & Libraries: Laravel 11, React.js, Vue.js, Next.js, Node.js, Express.js, AngularJS, CodeIgniter
Cloud & DevOps: AWS (EC2, RDS, S3, CloudWatch), Docker, CI/CD Pipelines, Kibana, Linux/Ubuntu
Databases: MySQL, PostgreSQL, MongoDB
Practices: REST APIs, Microservices, MVC, OOP, TDD (PHPUnit), Agile/Scrum, Git (GitHub, GitLab, Bitbucket)
Compliance: GDPR, HIPAA, GCP (Good Clinical Practice)

PROFESSIONAL EXPERIENCE

- PureSoftware – Consultant** Jan 2024 – Nov 2024
Full-Stack Developer (Contract) Noida, India (Remote)
- Engineered a **HIPAA & GDPR-compliant** clinical drug trials web platform (**uMotif, London**) used in live pharmaceutical studies across the UK, serving thousands of trial participants.
 - Architected and built RESTful APIs in **Laravel** consumed by native **Android & iOS** apps, enabling real-time patient data collection and trial monitoring.
 - Collaborated directly with international stakeholders in England, aligning technical deliverables with clinical compliance requirements under GCP certification standards.
- Futurism Technologies – PHP Developer** Mar 2022 – Aug 2023
Full-Stack Developer Pune, India
- Developed and maintained **GoSee** (New Zealand), a high-traffic affiliate travel platform built in **React.js**, improving feature delivery velocity by 30% through componentization and reusable UI libraries.
 - Resolved critical BAU bugs and shipped new product features in an Agile sprint environment, reducing open bug backlog by 40% within the first quarter.
 - Integrated third-party APIs and affiliate partner feeds, ensuring seamless data synchronization across the platform.
- NeoSOFT Technologies – Software Engineer** Aug 2018 – Feb 2022
Backend & API Developer Mumbai, India
- Built and deployed production-grade **REST APIs in Laravel 5.7** for **Scanbo** (diagnostic health-tech), powering iOS and Android apps used by healthcare professionals for rapid diagnostics.
 - Delivered a full-stack **Scanbo web portal** with role-based access control, real-time dashboards, and a leads management application, reducing manual reporting effort by 50%.
 - Optimized database queries and application logic for **Liquiloans** (P2P lending fintech), improving average API response time by 35% through indexing and query refactoring.
 - Championed code quality via **PHPUnit** test coverage and participated in architecture discussions for a microservices migration initiative.
- Webcubic Technologies – PHP Web Developer** Nov 2017 – Aug 2018
Backend Developer Mumbai, India
- Built a full-featured **GST CRM platform in Laravel** for SME clients, integrating **CCAvenue payment gateway** (via Indipay) and GuzzleHttp-based third-party RESTful API integrations.
- FinPeace Technologies & OELS – Web Developer** Mar 2016 – Oct 2017
Junior Frontend/Backend Developer Mumbai, India
- Developed the **IFA frontend in AngularJS** with client management, transaction tracking, and Google OAuth; built a bulk **Excel upload module** using Maatwebsite/Laravel to migrate thousands of customer records.
 - Created a **multilevel HTML5 Canvas platformer game** and CBSE e-learning modules using JavaScript, CSS3, and jQuery – demonstrating strong fundamentals in DOM manipulation and event-driven programming.

EDUCATION

Orchid College of Engineering Solapur University
Bachelor of Engineering – Computer Science Graduated 2014 | 68.86%

CERTIFICATIONS

- HIPAA** – Health Insurance Portability and Accountability Act
- GDPR** – General Data Protection Regulation
- GCP** – Good Clinical Practice (ICH E6)
